December 6, 2021

Dear Graduating Students,

With the situation limping back to normal, the Institute has decided to hold the 54th Convocation in a hybrid mode. The students can attend the ceremony either in person or virtually on the online platform to be made available for this purpose. Students who attend the ceremony virtually will receive their degrees through speed post.

**The Convocation is scheduled to be held on Tuesday, December 28, 2021.** A detailed notification will be released in due course.

To attend the Convocation ceremony in person, the graduating students have to ensure the following:

- The student is fully vaccinated with two doses of COVID-19 vaccine by December 14, 2021, and
- He/she has a negative RT PCR test report issued no more than 24 hours before the date of travel.

Much to our regret, it will not be possible to host the families of graduating students at the 54th Convocation because of the prevailing circumstances. The students attending the ceremony in person are, therefore, requested to travel to Campus by themselves.

**Registration for in-person participation can be done online at the link given below latest by Friday, December 10, 2021:**

Best wishes,

Dean, Academic Affairs
