

Department of Industrial & Management Engineering

Comments on ARC

IME department views on the Interim Report of ARC are as below.

1. The Institute must introduce the BTech-MBA dual degree.
2. In order to provide wider options to students, the department is contemplating a course on 'Introduction to Management'; details will be worked out later.
3. The minimum attendance requirement of 80 % is not necessary. The department feels that there are other mechanisms, such as quizzes and in-class discussions and presentations to ensure attendance.
